Journey to Careers is a Goodwill of Greater Grand Rapids program helping students with disabilities transition from high school to employment.

Employment

Journey to Careers provides Kent County high school seniors with disabilities an opportunity for career exploration, skill assessment and development, job search assistance and retention support in preparation for their transition from school to work. As part of Journeys to Careers, students will:

- Identify transferable skills developed in school, volunteer settings, and previous employment
- Learn about networking and how it benefits job searching
- Gain an understanding of how social media can impact job searching
- Create a professional resume and cover letter
- Learn how to create a basic budget
- Understand how to dress appropriately for an interview
- Learn about common mistakes during job interviews; participate in mock interviews
- Begin to understand and practice self-advocacy, as it relates to employment
- Explore a paid work experience, if needed
